

Handi-Hold™ Spray Docking Station

Installation Instructions

To install the Handi-Hold™ spray gun docking station on your 725, 825 or 1025 turbine systems follow these simple instructions:

1. Remove the female quick connect from the plastic bag and locate the ¾" male thread located on the top of your turbine, next to the handle (see photo).

2. Screw the female quick connect onto the male thread and tighten. (See photo).

3. Your Handi-Hold™ spray gun docking station is now installed and ready to use. (See photo).

4. Spray gun installed on Handi-Hold™. (See photo)
